

SUPPLEMENT: RELATIVE PRONOUNS

PRACTICE 1:

Read the following letter of complaint.

For each space (1 - 18), choose the option(s) (a, b, c or d) which are correct.

SOMETIMES THERE IS MORE THAN ONE CORRECT ANSWER FOR EACH.

Dear Mr. Jeffries,

I would like to complain about the hotel **(1)** _____ I stayed last week, one of your company's hotels. I spent nearly \$200 on the hotel **(2)** _____ I assumed would guarantee me some level of quality. That is a mistake **(3)** _____ I will not be making again.

This was going to be a second honeymoon for my wife and I **(4)** _____ I think you can understand the importance of. The first problem **(5)** _____ we encountered was finding the place. The address given on your website **(6)** _____, which I found confusing and out-of-date, was incorrect. I asked someone **(7)** _____ told me there were always tourists **(8)** _____ were lost in the area. Please correct the address immediately to prevent other situations such as that **(9)** _____ we suffered.

On arriving at the hotel **(10)** _____ had taken more than an hour, we were informed **(11)** _____ we did not have a reservation. Another twenty minutes passed before the receptionist **(12)** _____ name I cannot recall, found our e-mail and told us **(13)** _____ "there was an administrative error" by **(14)** _____ I presume she meant "the hotel is run like a circus".

We were finally shown to the room **(15)** _____ we were to stay in. It was cold and there was a wind coming under the door **(16)** _____ all made my wife feel very upset.

I would like at the very least a refund of the money **(17)** _____ we spent so foolishly by staying in your hotel. I would also appreciate an honest explanation of why we were forced to tolerate such treatment during a stay **(18)** _____ was supposed to be relaxing.

Regards,

Daniel Marston

PRACTICE 2:

Read the following paragraph.

For each space (1 - 10), choose the option(s) (a, b, c or d) which are correct.

SOMETIMES THERE IS MORE THAN ONE CORRECT ANSWER FOR EACH.

Birth order researchers have discovered some interesting information (1) _____ can help us understand our colleagues better. Do you have a difficult boss (2) _____ authoritarian personality makes your life difficult? If so, your boss might be a firstborn child. Children (3) _____ are born first are often more authoritarian than their younger siblings. Do you have a co-worker (4) _____ is passive, but particularly creative and insightful? This person may be a middle child. People (5) _____ have both older and younger siblings are often passive because their older siblings were responsible for their well-being when they were young. The creativity (6) _____ they exhibit might be the effect of their having spent a lot of time on their own due to having to share parental attention with their older and younger siblings. Some of the people with (7) _____ you work (8) _____ are controlling may be the youngest children. These people are also likely to be more social than co-workers (9) _____ are middle children. Of course, these are only generalizations. There are countless factors (10) _____ help form people's personalities, but birth order research may shed some helpful light on people's behavior in the workplace.

PRACTICE 3:

Read the following paragraph.

For each space (1 - 10), choose the option(s) (a, b, c or d) which are correct.

SOMETIMES THERE IS MORE THAN ONE CORRECT ANSWER FOR EACH.

A major way (1) _____ families have changed is the number of families (2) _____ have only one child. The number of families (3) _____ had only one child was low in the United States in the 1950s and 1960s. However, one-child families began increasing in the 1970s and are very common today. This is especially true in households (4) _____ have only one parent. One reason (5) _____ families are smaller is the cost of living. It is not the same as it was 40 years ago. For example, it costs about 10 times more to send a child to college than it did 40 years ago. As a result, many parents choose to have only one child because they do not have enough money for more children. In addition, attitudes about only children are also not the same as attitudes about them in the past. In the 1950s and 1960s, people avoided having only one child. At (6) _____ time, many people thought that children (7) _____ did not have siblings had many disadvantages. For example, people thought that they did not learn good social skills. However, recent studies (8) _____ focus on only children show a different picture. These studies show (9) _____ only children tend to have the same social skills as children (10) _____ have siblings.
